

THE
COMPLETE
English Dictionary,

Explaining most of those

HARD WORDS,

Which are found in the

BEST ENGLISH WRITERS.

By a Lover of GOOD ENGLISH and
COMMON SENSE.

N. B. The AUTHOR assures you, he thinks this is
the best ENGLISH DICTIONARY in the World.

LONDON:

Printed by W. STRAHAN;

And sold by J. ROBINSON, Ludgate-Street;
T. TRYE, Gray's Inn Gate, Holborn; T. JAMES,
Royal Exchange; and G. ENGLEFIELD, West-
Street, Seven Dials. MDCCLIII.

T O T H E
R E A D E R.

AS incredible as it may appear, I must avow, that this dictionary is not published to get money, but to assist persons of common sense and no learning, to understand the best *English* authors: and that, with as little expence of either time or money, as the nature of the thing would allow.

To this end it contains, not a heap of *Greek* and *Latin* words, just tagged with *English* terminations: (for no good *English* writer, none but vain or senseless pedants, give these any place in their writings:) not a scroll of barbarous *law expressions*, which are neither *Greek*, *Latin*, nor good *English*: not a croud of *technical* terms, the meaning whereof is to be sought in books expressly wrote on the subjects to which they belong: not such *English* words as *and*, *of*, *but*; which stand so gravely in Mr. *Baily's*, *Pardon's*, and *Martin's* dictionaries: but “most of those hard words which are found in the best *English* writers.” I say, *most*; for I purposely omit not only all which are not *hard*, and which are not found in the best writers: not only all law-words and most *technical* terms, but likewise all, the meaning of which may be easily gathered from those of the same derivation. And this I

To the READER.

have done, in order to make this dictionary both as short and as cheap as possible.

I should add no more, but that I have so often observed, the only way, according to the modern taste, for any author to procure commendation to his books is, vehemently to commend it himself. For want of this deference to the publick, several excellent tracts lately printed, but left to commend themselves by their intrinsic worth, are utterly unknown or forgotten. Whereas if a writer of tolerable sense will but bestow a few violent encomiums on his own work, especially if they are skilfully ranged in the title-page, it will pass thro' six editions in a trice; the world being too complaisant to give a gentleman the Lie, and taking it for granted, he understands his own performance best.

In compliance therefore with the taste of the age, I add, that this little dictionary is not only the shortest and the cheapest, but likewise, by many degrees, the most correct which is extant at this day. Many are the mistakes in all the other *English* dictionaries which I have yet seen. Whereas I can truly say, I know of none in this; and I conceive the reader will believe me: for if I had, I should not have left it there. Use then this help, till you find a better.

The COMPLETE

English Dictionary.

A.
